DETAILED ACTION

Applicant's arguments filed 5/17/04 have been fully considered but they are not persuasive. See arguments below.

I. Rejection of claim 1 under 35 USC 102(b) will be maintained for reason on record and reason as follows. Applicant argues that Farhadieh does not teach that the addition of citrate would enhance the effectiveness of chelocardin (antibiotic). Applicant points out that data in instant application show enhancement of effectiveness. Examiner argues that Farhadieh teaches at least 1 % citrate with chelocardin. Therefore it is inherent that the citrate would enhance the effectiveness of chelocardin. No data provided can overcome the 35 USC 102(b) rejection of record.

II. Rejection of claims 1,26 under 35 USC 103(a) over Brown et al will be maintained for reason on record and reason as follows. Applicant argues that Brown does not teach that the addition of citrate would enhance the effectiveness of ampicillin. Examiner reiterates that Brown teaches the combination of citrate with ampicillin. Examiner argues that a statement regarding intended use in a preparation claim has no patentable significance.

III. The instant invention comprising vancomycin is allowable.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

Art Unit: 1616

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
